Education

Bachelor of Technology in Data Science 2022 – Present
SCMS School of Engineering and Technology *CGPA: 6.64*

Class XII (Science) 2022
Girideepam Bethany Higher Secondary School *85.33%*

Experience

NeST Digital Academy Ernakulam
Data Science & Machine Learning Intern *2026*

- Completed a one-month industry immersion internship in Data Science and Machine Learning.
- Performed data preprocessing, exploratory data analysis (EDA), and feature engineering using Python.
- Applied machine learning techniques and data visualization to solve real-world business problems.

Projects

SalarySense AI | *Python, Pandas, NumPy, Scikit-learn*

- Developed a salary prediction system using machine learning techniques.
- Performed data preprocessing, feature engineering, and predictive modeling on salary datasets.

HelpIt – Helper and Rental Item Delivery Platform | *HTML, CSS, JavaScript, PHP, MySQL*

- Built a platform connecting users with helpers for item purchase and delivery services.
- Implemented booking management and request tracking using a MySQL database.

Gas Booking Management System | *Java, MySQL*

- Developed a gas booking and delivery management system with booking history and status tracking.
- Improved service management through automated booking workflows.

Technical Skills

- **Languages:** Python,SQL,C
- **Tools:** Jupyter Notebook, VS Code, GitHub
- **Libraries:** Pandas, NumPy, Matplotlib
- **Domains:** Data Science, Machine Learning, Data Analysis
- **Soft Skills:** Problem Solving, Teamwork, Communication, Leadership, Time Management, Adaptability, Analytical Thinking, Attention to Detail
- **Languages Known:** English, Malayalam

Certificates & Courses

- Full Stack Generative and Agentic AI with Python Certificate – Coursera
- Essentials of Prompt Engineering – AWS Training and Cetification
- Foundation of Prompt Engineering – AWS Training and Cetification
- Cloud Practitioner Essentials – AWS Training and Cetification
- Data Science,Data Analytics and Business Analytics Workshop – Zoople Technologies
- Power BI Workshop – National Institute of Technology
- Advanced Software Engineering Job Simulation – Forage
